

Austria's leading company - CBmed is a center for biomarker research in medicine with headquarter in Graz. It links excellent research infrastructure, scientific expertise, medical knowledge, national and international industry partners for systematic medical biomarker research.

To strengthen our team in Graz, we are seeking to recruit an ambitious, committed

Project Coordinator (all genders)

Tasks:

- Coordinate the planning, execution, timeline management and reporting of research projects among the research team
- Development and implementation of work plans, timelines and strategies to achieve project milestones
- Manage timelines and project progress reports with sponsors and service providers
- Coordinate collaborations with sponsors, service providers, academic institutions and industrial partners
- Reporting of progress, deviations and results to internal supervisors and external customers
- Capture, evaluate and implement emerging technology trends and drive implementation of such novel technology and share ideas across teams
- Support scientific presentations and publications
- Literature reviews and identifying new opportunities for growth and innovation

Skills and Abilities:

- PhD or equivalent degree in the life sciences with an in-depth understanding in IHC and cancer immunology
- Scientific focus on cancer immunology or cancer genetics and molecular mechanisms driving initiation and progression of cancer as well as in translational research
- At least three years of post-doctoral experience, preferably working in cancer genetics or tumor biology
- Strong sense of responsibility
- Evidence of project management skills
- Excellent team spirit, communication and presentation skills (English as a working language, German of advantage)

You will have the opportunity to work in an internationally connected company, within a committed, agile and motivated team.

We offer an unlimited contract with a minimum yearly salary from € 60000 gross based on 40 hours/week. Overpayment is possible, depending on qualifications and work experience.

CBmed lives an inclusion and supportive work culture. We encourage diversity across all levels. Our common goal is enabling precision medicine.

Diversity enriches our work. We welcome applications from people from all walks of life and with a variety of experiences.
