

CBmed is a center for biomarker research in medicine with headquarter in Graz. It links excellent research infrastructure, scientific expertise, medical knowledge, national and international industry partners for systematic medical biomarker research.

To strengthen our team in Graz, we are seeking to recruit an ambitious, committed

Biomedical Analyst (BMA) / Lab Technician (f/m/d)

Tasks:

- Designing and executing laboratory testing for research projects
- Establishment of new laboratory testing procedures
- Collecting, preparing and testing samples from human or animal origin
- Recording and analysing laboratory data using a LIMS system
- Active participation in TQM related workflows
- Writing reports, reviews and summaries and presenting laboratory results
- Performing maintenance and quality control measurements for laboratory equipment
- Supporting publication and dissemination of research work

Skills and Abilities:

- Biomedical Analyst with a BSc degree or higher
- Beneficial basic experience in sterile cell culture work and in immunohistochemistry
- Advanced spoken and written English and German communication skills
- Excellent organizational and problem-solving skills
- Beneficial experience in GxP, and / or other quality related norms and regulations
- Ability to work autonomously and accurately
- Openness to work in an international team

You will have the opportunity to work in an international connected company, within a young, dynamic and international team.

We offer an unlimited contract with a minimum annual salary from € 40 880 gross based on 40 hours/week. Overpayment is possible, depending on qualifications and work experience.

Applications are welcomed on an ongoing basis
